## July Program

### Die Doubling vs. Strike Doubling

Thank you to Bruce B. for a very informative program talk on this interesting numismatic subject.

The subject talk included:

Die doubling: a doubled image on the die itself, before the coin is produced.

Strike doubling: is caused during the striking process.

Other forms of doubling include die fatigue, die polish and possibly intentional.

Types of coins and dates for the different types of doubling.

Bruce passed out handouts showing doubling effects with a Die Doubling I.Q. Test.

## August Collector's Corner

Please bring an item(s) for our show and tell session.

## August Coin Prize

Members wanting to participate could bring in the oldest foreign coin you have between 1500 and 1800 and if it is the oldest, you will win a prize. If a yearly tie, judging will be based on condition of the coin.

## 2012 Holiday Party

Now is a good time for us to start thinking and planning our joint holiday party. Because of the increased number of Coin Club, Society and family members over the last couple years, this is of growing concern.

We will need some member input and participation on the party meeting place, the door prize system and any other concerns about the joint party.

## Coin Club's Web Space Page

Our website can be viewed at ([csccl.anaclubs.org](http://csccl.anaclubs.org))

We do need help with this and ask the membership for any ideas for adding information, articles, art work and newsletters to the site. Please visit the site for all the information about our anniversary medals.
